

Dear Harvest Partner,

We have entered the hour that we have spoken about in past letters! **The financial crisis has come to a boiling point. It is certainly evident now with about 9 bank failures. And this brings me to a “watch” list.** The FDIC has approximately 50 billion dollars to cover almost \$14 trillion deposited in the banks. As any panic sets in this will draw heavily on their funds. After they have exhausted their fund that will leave the government to step in and begin to print money to cover these defaults. The government has already taken over Freddie Mac and Fannie Mae, the huge lending arms of the housing market. They cannot be allowed to fail. It will soon turn into nationalizing all failed institutions. – **The pendulum has swung against the USA and rest of the world financially. Look for many events before and after the Nov. election. That’s where I saw the pendulum of cycles begin.** – Also an important note: As I am writing this letter there is a total eclipse, Aug. 1, 2008. Associated with eclipses are earthquakes. We had an earthquake in S. Calif. as I write this. The next total eclipse will be Jul. 22, 2009 and the next one Jul. 11, 2010. That gives us 3 total eclipses in a row! The path of an eclipse is also important. I will write more on this later. **Bro. Frisby spoke to me before he passed away and he said we are entering the most dangerous hour of this earth. (This is the hour of the 91st Psalms.)** – And now I have a special quote from Neal Frisby.

“The Bible has much to say about the coming economic turmoil, and the gospel would not be complete without an important warning!” – “We will take this from a past letter and then give some national quotes. – We are now entering the inflationary crises that I spoke about to come. Inflationary and depressionary measures will come at the same time until it crashes!” – “Anyway some financial overthrow will definitely appear!” It maybe in the manner of an overnight devaluation price crash! But the dollar will have lost most of its value, and the high mortgages will be impossible to pay off! Then will come the new system leading to the anti-Christ that we spoke of!” (James 5 – Rev. 3:10, etc.) Finally consolidating into Rev. 13:16-18!

Let’s quote from national economic observers and researchers of late and see what they have to say! Quote: “Each inflationary recession will be more devastating than the last!” – “And finally we are expecting runaway inflation!” – “Despite the government propaganda the dollar is worth less and is still declining!” Here is another financial quote from a well-known authority: “We think the world is headed for inflation of monumental proportion, and eventually a massive depression!” End quote. “Then new money and system will have to appear as we noted above!” (Let’s do what we can for Jesus while there is still value left!) “So it looks like we ‘are in’ and headed for an inflationary crisis that we spoke of; and then followed by complete economic overthrow at the end. But you can count on one thing; it is definitely going to occur in the near future! Be watchful!”

“What I received in the scrolls was the ‘general characteristics’ of a personality and ‘traits’ of one to come! And the words ‘he’ or ‘him’ were used because in Rev. 13:11-16 it says ‘he’ doeth, ‘he’ hath power, ‘he’ causeth and so forth!” In verse 18, “we see a man involved!” “In verses 4-5 reveals that the beast is also a man, and the false prophet is also a man!” (The first beast and the second beast.) “The reason I am saying this is because it was also revealed to me a strong woman personality of some sort would also arise in this nation!” “She could hardly arise before the false prophet, but she could arise in conjunction or association with him!” “Remember Jezebel rose with Ahab in Israel’s day! We will see something similar to this at the end!” – “We will definitely know more concerning this as the age ends!” “But right now let’s pray and watch and see what occurs. This one thing we can say, time is very, very short for the Bride elect!” **“Already we see events shaping up on both political sides. Be very watchful, because anything can occur in the future and generally does!”**

I wrote about dramatic occurrences, crises, immoral perversion, also staggering turnabouts in the weather patterns and that it would be out of order more than ever before! From the book, Gathering Storm, Part 1, page 4 we quote: “Also around the world as the age closes out, you’ll probably see on the weather charts in the news, there’ll be a tremendous amount of rain in some areas of the world! Then in other parts of the world, complete drought, as we’ve never had before! So therefore they will have floods and then they will have droughts! But nothing will come at the right time, until finally there will be too much water and then there won’t be enough water!” – **“Here’s more concerning the prophetic vision, the intensification of 4 elements, symbolizing major upheavals and weather plights ahead! First element, the intensification of water, and we witnessed this is storms, weather, etc. – Then the element of air. Giant tornadoes and great wind storms, etc. – Then the earth element, the giant earthquakes, etc. Fourth element of fire! Major droughts in different parts of the world and all of the above are occurring before our eyes!”** Now is the time to stay in God’s presence for His outpouring. The future is not very bright for the world, but it is a joyful time for the Elect!” End quote. What a wonderful quote from Brother Frisby giving the elect important details of the ending of the age!
