

Dear Harvest Partner,

The sands of time are running out. We are in a New Year, 2012. A much anticipated date. Looking back at 2011 some of the worst weather and earthquakes of extreme nature took place. One in particular was March 11, 2011; the Japanese major quake that severely destroyed Japan's nuclear facility causing it to leak in that area. As if the tsunami wasn't bad enough, killing thousands of people. **Since late 2004 there have been four major earthquakes that have shook the planet – Indonesia, Haiti, Chile and Japan. Each time it shook the axis of the earth.** – Let's take a look at the United States weather. Some of the worst floods, tornadoes and weather catastrophes were seen almost in every state. **Recorded since 1970 there has never been extreme conditions like this.** Four days in April there were 343 tornadoes, the largest outbreak on record, including 199 in one day. Also recorded were many earthquakes and shakings across the United States.

Now let's take a look at these important cycles that we have been talking about in the past letters. **In November 2008 a new 17 year cycle started, at the time of the presidential election.** A new and different president came in. Since this time we have seen many worldwide major events take place. **The next new cycle was March 11, 2011, beginning of a new 7 year cycle. That brings us to February 3, 2012, a new 14 year cycle begins.** Since the beginning of the 17 year cycle there has been much chaos with riots on a worldwide basis especially in the Middle East, a most important area, changing leaders and dictators, opening the doors for a possible peace agreement that will come. All of this is due to a worldwide financial crises.

We are approaching an apocalypse never seen before on a worldwide basis. Every nation is trapped in a catastrophic debt problem and there seems to be no way out. Just to give you an idea of how serious this is we're talking about over \$700 trillion in derivatives based on a world economy of around \$60 trillion. The total worldwide assets are approximately \$150 trillion. Match that to a debt of over \$200 trillion worldwide. The enormous size of the derivative market is the most dangerous portion of these equations. These derivatives are based on an insurance or an IOU. **Just lately there was a major trading house collapse. MF Global was a worldwide clearinghouse for commodities and derivatives. This is considered to be one of the most critical and dangerous events.** There is no safe place. Who can you trust? That would include banks and brokerage houses. – Europe is facing one of the most difficult times with huge debt. **I see this as a time for the European Union where the ten common market countries will arrive in the near future.** This must happen to bring about the Biblical prophecies that have been spoken. A new world leader will arrive, seemingly with the answers to the complex problems that are facing the people of the earth.

One can see that all of these cycles that have begun are pointing to the soon return of Christ. – If you count the 17 year cycle from 2008 and the 7 year cycle starting from 2011, if you add one more 7 year cycle that starts at 2018 and you begin a new 14 year cycle that starts at 2012, all three of these cycles will end mid 2025. (Should the first 7 year cycle not bring all of the events for the anti-Christ system, he will surely arrive in the second 7 year cycle.) Many financial writers are looking for a worldwide financial collapse bringing on a new system and a new currency. Somewhere up in these cycles this event will take place. I'm placing two major dates to be looking at in the future: August 23, 2013 as well as the most major date April 23, 2014. We will go into what these dates mean at a later time. **One should be ready at all times expecting the Lord to return. All of the dates written about will have an impact on the world as we know it. Unrest and fear are covering the earth but the Lord tells us in Isa. 44:8, "Fear ye not, neither be afraid." – Isa. 46:10 proceeds to say that "He has declared the end from the very beginning." We are arriving at a time He has purposed! (Eccl. 3:1 and vs. 11)** This is our hour of harvest. Let us do all we can in this short period of time left.

This month I'm releasing a Special Writing called **"The Prophetic Clock is Ticking."** Also an amazing DVD called "Mysterious Lights." (See offer below.) – Trusting we can start the year out publishing more of this vital message. God will prosper and bless all that have helped. May His wisdom be with you all through the New Year and His greatest blessings.

Your Brother in Christ, *Gerald Frisby*
