

Dear Harvest Partner,

Cycles of the greatest changes are almost in place. 2009 has already been a startling year. I believe in the next few weeks or months there will be events even more severe. **The world is approaching a complete change. A melt down has been happening right before our eyes.** For the first three to four years I have pointed to Brother Neal Frisby's prophecies and forecasts of the coming anti-Christ and many of the events we are seeing right before our eyes. We spoke about the financial crises as early on as 2005 when everything was prospering and there was no bad times ahead. How quickly that has changed. It caught all people off guard. **The Bible speaks about an event that it shall come upon them like a snare. It also says that the Elect have a more sure word and have stayed faithful before God and they will not be deceived by the coming events.** Matt. 24:24 gives us the answer to that.

God has placed a time element upon this world and we're seeing it decay right before our eyes. At first it was unnoticeable but now it is beginning to become evident that there is structural integrity at risk in just about everything. The most major destruction has been to the banking system. That system has taught everybody to use credit deceiving them about the actual value of almost everything they come in contact with. **Global currencies are now suspect of one another. The distrust is much more suspect of the dollar.** I'm going to mention an event and an U.S. Treasury Secretary. Robert Reuben was the Secretary under President Clinton for the first four years. He advocated a strong dollar policy. This drove our trading partners to avoid buying American goods. They began to trade with one another at more reasonable prices. Their currencies were more in line with one another. He also convinced central bankers to sell more gold to artificially drive down the price. Part of his scheme was to lease their gold out and let someone else sell it – mainly the bullion banks. All of this was orchestrated at the taxpayer's expense as we now see. Now this will bring us back to the dollars' health. All during this time the central banks were printing more money creating hidden inflation. **Gold is a barometer that tells you the real value of any currency.** At that time it was trading at very low levels leaving most people and financial investors totally unaware of the impending financial and banking crises we are now in. We are in a time that the government has had to step in. No time in our history has the government run private enterprise. This should not be taken lightly because this will lead to one world government when you cannot buy or sell without express permission. Already Fanny Mae and Freddie Mac and the large insurance company AIG, Chrysler and GM are under the influence of the government. These are some of the largest corporations in the world and we see the trouble they are in now. This will bring us to a state and local level trouble that is coming. The infrastructures are in a decaying condition. Tax revenues are headed down. There will not be enough money to keep all services operating. They will be eliminated little by little. Those who depend upon them will have the hardest of time. California is one of the greatest examples of a budget short fall. And as we watch this state deal with its problem it will show us the way the other states will more than likely have to follow. Even a massive bailout from the U.S. government cannot cover all of the losses that will occur.

In the beginning I mentioned the cycles. 2010, it will be evident that the recovery is not as big as they expected. It will be evident at this time that the scales of balance are not working. It will also be evident that inflation will now be the major problem. During the time of Germany it only took less than 3 years to destroy their currency. And as we well know that brought them to a man who seemed to have the answers they needed, but turned out to be the worst dictator of modern time. Dictators arise during chaos and a severe inflation. And that brings us to the anti-Christ who will appear with answers to their problems to restore the balance. **But according to Rev. 6:5 and 6 describes what happens next. He carries a scale of balance with him saying, "a measure of wheat for a penny, and three measures of barley for a penny."** That shows an extreme inflationary environment. Already the UN has announced that 1 billion people are hungry in the world. When drought and crop failures come, and they will, just before and nearing the Great Tribulation, this is one of the main reasons they will accept the anti-Christ. Nothing is more important than a food crisis. He then has them trapped. This is one of the strangest letters that I have written. There are so many events about to happen that I don't actually know where to put all of them. It is one thing for sure that the 10 major companies that control the press are definitely hiding and have hidden much of this trouble. **But by studying the Bible and reading the Scripts that Brother Frisby left has certainly not caught the elect in the dark!**

I would like to thank the Lord for sending Brother Neal Frisby with the most vital message of our time. His valiant effort to give us the true and faithful word that God had given him for our benefit. **We are about to start a valuable program to print a new series of books containing the Special Writings that I know will be a great benefit to you and all who read and study the Bible.** Also we're planning to produce it in a foreign language; the first will be the Dutch language to cover the Netherlands. We will be adding new equipment to help produce these valuable books. This would be a great time and opportunity to help in this enormous project that we are about to undertake. I sincerely know from my experience with the Lord, for giving and helping His valuable work, I have received some of the greatest blessings and I know you will too. I promised Brother Frisby that I would do my best to publish this message. Note: There will also be a total eclipse July 22, 2009. This is also the month Brother Frisby was born, July 23, 1933. I definitely want to remember him and dedicate all of these new books to Neal Frisby.

All who write this month will receive these three Special Writings: **"The Signs of the Time", "Prophetic Time Cycles" and "Divine Inspiration."** I am also releasing a DVD called "God's Compassion Never Changes." (See offer below.) – May the Lord give you wisdom and guide you in the days ahead. I'll be praying for you and your family.

Your Brother in Christ, *Gerald Frisby*

All 3 new CD's/Cassettes: \$15.00 donation
 "Jesus in the Spirit of Prophecy"
 "God is Faithful"
 "Relieve Pressure"

New DVD release: "God's Compassion Never Changes"
 Also available: "Deception and Deception"
 (\$20.00 donation each)
