

Dear Harvest Partner,

In this letter we are going to review our past letters since 2007 indicating some important events that have happened and some results from these dates. In the May 2007 letter I spoke about the new 17 year cycle in November 2008 right at the same time of the most important election for the United States. A new and different president was elected. Great changes have come to the U.S.A. and all nations. During this cycle we should see the fulfilling of the one world government system. The beginning of the 17 year cycle has brought devastating weather and severe earthquakes as well as news of a large scale – financial global banking crisis. Sub-prime housing market was only the tip of the iceberg. As large as the banking crisis is, it will be dwarfed by the derivative market collapse. At the time of the 2008 writing it was over 500 trillion dollars. As I write this letter today the latest statistics reported 2 quadrillion dollars! Also in February 2008 we spoke about a new 7 year cycle coming March 11, 2011.

In April 2009 we took a look at what amount of time is left. We know the second coming of Christ is even at the door. **The true word of God and prophecies given in the Bible speak about “when you see these signs all around you that the end is near.”** Today as we look at all of the worldwide complex problems that they are facing, we see all nations struggling to fix this enormous financial problem. I will place this in plain words so that we will know the severity. It is evident now that this is a severe nuclear financial holocaust. When a nuclear device is detonated there is no humanly way to stop it. It is the total end of the financial world that we all know. The more trillions that they throw at the problem only make it to be a bigger problem. It is now evident that our trading partners who have loaned the U.S. trillions of dollars by buying our bonds are seeing their value being inflated away. **They are looking for ways to create a new currency. This will end the dominance of the U.S. dollar worldwide. Already Russia, China, the Middle East and many other nations are calling for a return to a gold standard to solve the financial crisis.** Because of this event coming we will take a look at the last period of time associated to the mark and gold. We know we’re already into the 17-year cycle, which will bring us into the next 7-year cycle beginning 2011 that will ultimately bring us to approximately the year 2018. Now if we go back in time, the Jewish Temple was destroyed in 70 AD and the sacrifice was ended. That was a 70-year period. So if we take Israel possessing the land again in 1947 and recognized as a nation in 1948, where again they were able to make their sacrifices in their homeland, now we add the 70 years back to 1947 and 1948, we come out to the year 2017, or 2018. Remember the last 7-year period begins in 2011. Now adding the 7 years to that number becomes 2018. A noted economist recently wrote, “It took 70 years to build this great credit and debit but it will only take 48 hours to take it all down.” A collapse so severe that all past financial collapses will not match this one! The world will not see it coming for the new system will appear out of great chaos. “In an hour ye think not!” (Luke 12:40) **This will lead the way for one world government domination. When the final crisis arises, this will allow the anti-Christ to appear on the scene. He will be hailed as a ‘saviour’ in an hour of crisis. Could he be riding the white horse now deceiving all nations?**

In our next letter we’ll start at 2012, the new 14 year cycle began. In 2013, the Catholic Church received a new pope. 2014, Pope Francis visited Israel for a peace agreement and a major event, the first of the 4 blood moons and the greatest grand square in the heavens that has ever been recorded. In 2015, a historical event where the Pope visited the U.S. Congress and a total lunar eclipse, the last of the 4 blood moons occurring over Washington DC and East coast. “All of these events, time says, you can’t see me until I’m gone!” – We will also discuss the coming political crisis and total chaos in the next presidential election with devastating implications in a dangerous political year where anything can happen as well as fast approaching severe financial crises. **All of these numbers will give us a time or season to the conclusion to the return of Christ, the anti-Christ in complete power and finally the great Battle of Armageddon.**
